Contents

The Dynamic Process of Education Expenditure Distribution in Each Region of China .................................................. 1
Wei Tan

Cultivation of University Teachers’ Education Technology Ability - A Study on the Strategies Basing on Learning Community .......... 7
Huiting Wei

The Elective Course Setting Reform in the Perspective of Behavioral Decision Theory ....................................................... 13
Bingshui Li and Ji Yueru

Exploration and Practice in Engineering Education Reform of EE Major Based on CDIO Mode ................................................. 19
Ming Zhu, Li Meng, andKechang Fu

Several Key Technologies of Virtual Simulation on Aviation Ammunition Teaching Software .................................................. 25
Rubo Geng, Gang Xu, and Xiaopei Yang

Introduction Research and Practice of Training Mode Reform in the Higher Engineering Education ........................................... 33
Xiu Qin Wu, Tie Liang Liu, and Zhi An Yi

The Misunderstandings and Implementation Difficulties in Education and Training Program of Excellent Engineer ..................... 39
Guo Changli and Yang Fuqiang

Reform and Practice of Schools and Enterprises Build CDIO Engineering Education Mode ...................................................... 45
Niansheng Yin, Hanqi Yu, Xue Yang, and Jingqiu Wu
Explore the Laws of Students' Cultivation by Grasping Features of Courses Accurately
Hui Wang, Enyong Hu, Minglian Zhang, Li Ou, and Chunhua Xu

The Practice and Exploration of “The Enlightened Self-study” Method
Renbing Feng, Hui Wang, Chunhua Xu, Jing Sun, and Enyong Hu

The Cultivation of Competent Engineering Majors Oriented by Industrial Demand
Meng Dawei and Li Shangqiang

Personalized Multi-layer Talents Cultivation Mode of the Material Molding and Control Engineering Major
Changjun Qiu, Xiangfang Fan, Wei Wu, and Jia Zhang

Engineering Education Reform in the Synchronization of Higher Education Management
Xiu Qin Wu, Tie Liang Liu, and Zhi An Yi

Development of Master of Engineering Programs for Engineering Education
Zhihong Yang, Jianfeng Li, and Peijun Xue

Construction Management Program for Bachelor’s Degree Based on a Survey
Tai Shuangliang

Research of Graduates’ Educational Satisfactory Evaluation in Heilongjing Province Based on LISREL Model
Weidong Zhong, Di Lu, and Yibo Ma

China’s Emergence as a Leading Country in Artificial Intelligence—From a Bibliometric View
Lin Zhang

Construction of the Innovation Mechanism in Independent College Based on the Merged Knowledge
Dong Zhao, Jun Hao, Honglang Lv, Zhi Liu, Chunhai Li, Lei Wang, Jun Wei, and Shengfeng Ren

Management Motivation, Borrowing Cost Capitalization and Long-Term Construction Projects
Ying Que and Peter Secord

The Application of EDA in the Engineering Practice of Quality Training
Xiaolong Zhu
Course Construction of Automatic Control Theory under the Framework of Excellent Talent Program .......................... 123
Jing Li, Wengfeng Zhu, Aiguo Zhou, Xiaolei Xiong, and Jianzhong Wu

Research on the Development of New Media Information Capabilities about College Students ................................ 129
Wang Yaping and Liu Ronghua

On the Campus Culture Construction as the Core Competitiveness of University New Area ........................................... 137
Jun-Ping Qian and Shuang-Chen Li

Analysis about Improvement of Students Training Quality in Higher Institution ......................................................... 143
Shanyi Ma and Lei Chen

Model Research on Teaching Evaluation for University Teachers Based on Developmental Evaluation .......................... 149
Sun Caiyun, Wang Yichen, and Zhai Jianjun

From Discipline to Indoctrination: A Trend in Classroom Management ........................................................................ 155
Wang Zi

Practical Education Innovation in the Hydraulic Transmission Education ...................................................................... 161
Yang Ranbing

A Study on the Way of Case Teaching Promoting the Qualification of Teacher Team in Newly Established Majors .................. 167
Wang Minjie and Liu Limin

The Problems in the Course of China’s Urbanization ......................................................................................................... 173
Shang Juan and Du Shan

The Study for Inter-organizational Cooperation Network of Public Services Supply ....................................................... 179
Jiuxiong Pei

Study on the Entrepreneurship Education Reform in China’s Universities .................................................................... 185
Yu Peng and Li Yan Du

Re-ranking of High-Impact AI Journals Based on H-Index ................................................................................................. 191
Lin Zhang
The Lease Mode of the Engineering Equipments According to Government Bidding .................................................. 199
Zhang Yan

The Design of Teaching System of the Public Elective Course 
“Operations Research” ........................................................................ 207
Xingang Yang and Caihong Shan

Collaborative Product Commerce and Its Five-Element Set Model of Discrete Manufacturing Enterprise .............. 213
Su Jing

The Dynamic Management of Career to College Students Based on Psychological Contract ........................................ 219
Xiaoqin Gao

ERP Course Teaching Mode of Research and Practice .................. 227
Zhang Yuesheng

Electronic Learning Spaces and Prospections .............................. 233
Yingjie Wu and Yiquan Zhao

The Current Situation and Problems about Higher Education in Hebei Province ....................................................... 241
Haiyan Zhang and Shuying Qiu

Contract Design of CLSC with Random Collection Quantity ................................................................. 249
Gen-Long Guo and Wen-Jun Gao

Countermeasures for Customer Development of Marketing Department in Futures Companies .......................... 257
Deng Xinxin and Lu Renshan

On Modern Educational Technology Training for University Teachers ............................................................... 263
Huanrong Shao

On Study of Landside Disaster Risk Assessment Applying Fuzzy Comprehensive Evaluation Method .................. 269
Juan Juan Wu, Qing Lin Yi, Lei Bao, and Jin Sheng Lei

The Constructive Research on the Evaluation Model of the Industry Cluster Competitiveness ............................. 277
Xueli Wang, Zhigang Yan, and Shiqiang Bai

Research of Innovative Design Experimental Teaching on Engineering Surveying .............................................. 285
Fenhua Li, Jian Xing, and Yuan Liu
Research on Training Model of Based on International Engineering Conception for Undergraduate Education in Engineering

Chen Dong-Song

291

Transcending-Learning-Style in the Engineering Education

Yiquan Zhao, Yingjie Wu, Chengcheng Wu, and Qing Xia

297

Research on the Scarcity of Educational Resources in China

Ying Yang

305

Teaching Reform of Computer Information Management Professional

Zhang Yuesheng

313

A Project-Oriented Model of Graduation Thesis in the Industrial Engineering Undergraduate Program

Ying Li and Baosheng Ying

317

Study of Chinese Copycatting Mobile Phones’ Competitive Advantages Based on the Theory of Disruptive Innovation

YongLin Xia and Yao Yao

323

Discussion on Local Universities Relying on Cultivating Innovative Talents of Characteristic Discipline

W.J. Huang and Z.M. Zhou

329

Study and Practice of Bilingual Teaching Course in Major of Materials Forming and Control Engineering

Z.M. Zhou, W.J. Huang, T. Zhou, H. Xia, and C.Y. Peng

335

Study on the Team-Based Management of the Learning Organization

Zhang Qinyan

343

Game Analysis on Risk for Project Bidding

Fang Luo and Guodong Zhang

349

Research on the Career Quality Training of Students in Perspective of Career Planning Education-Take Students of Hospitality Management Major as an Example

Hongyun Kuang and Xiaojing Wang

355

Design of Digital PLC Experimental Teaching System

Yupeng Yao

361

Research on the Lack of EQ Education on Chinese Campus and the Teaching Countermeasures

Gangjun Guo and Yiquan Zhao

367
The Exploration and Practice of Mechanical Applied Talents Training in Local Colleges in China ................................................................. 373
Wang Hong

Research Teaching Methods Used in Equipment Maintenance Programs ................................................................. 379
Kan Liu, Xude Cheng, Yang Dong, Bowen Yang, and Chaonan Dong

Study on Task-Oriented Pilot Teaching Method ........................................ 385
Zhang Weiwei and Shang Weiyan

Fuzzy Clustering Segmentation Research for Commercial Bank Customers ................................................................. 391
Peng Yanyan

Research on the Three-Dimensional Teaching Resources ................................................................. 397
Liu Liqun

Exploration of Independent College’s ‘234 Practical Teaching Content System’ ................................................................. 403
Xiangran Li and Xianjie Wang

Preliminary Study on the Cost Control in Medium and Large-Sized Construction Project ................................................................. 413
Huaidong Mao, Mingwen Hu, and Ying Li

The Application of ANSYS on the Teaching of Structural Mechanics ... 419
Dashan Dong, Yuanyuan Teng, and Xiao Mei

Tourism Facilities Management: A New Course Design and Optimization Based on Survey ................................................................. 423
Hui Zhang, Hongjian Cao, and Yue Miao

A Brief Study on the Application of Modern Teaching Devices in Higher Mathematics Teaching ................................................................. 431
Aiqin Li, Qiang Zhang, and Jinsheng Yin

The Research of the Relationship between University Mathematics Learning and Quality Education and Enforce of Human’s Ability ...... 437
Chunming Zhang, Haitang Wang, and Wenjing Li

Application of Delphi Software in the Teaching of Basics of Mechanical Design ................................................................. 443
Chen Ling-Lin, Chen Qi, and Zhu Jiacheng

Training Mode of Media Management Talents – A Comparative Study between Mainland China and Taiwan ................. 449
Chih-Chung Chen
The Conception of the Construction of Land Consolidation Program and the Building of Industry-University-Research Mode in Land Resources Management Specialty ........................................... 459
Yan-Jun Zhang and Xiao-Yuan Mi

Commercial Bank Branch Efficiencies Based on Three-Stage DEA Model ................................................................. 465
Peng Yanyan

A Study on Practical Teaching System of the Education of Creation and Innovation of Independent Colleges ......................... 471
Zhiling Xu

The REITs Applied Research of Indemnificatory Apartments Financing ................................................................. 475
Yunning Zhang, Wenli Yuan, and Jianqiao Lin

On the Opening of Excellent Course Online Teaching Resources .............. 483
Yumin Pan

Concerning the Normal Curriculum Settings and Training Mode Innovation ................................................................. 489
Xilong Tan and Huiling Wang

A Study on University-Industry Cooperation of Engineering Education ............................................................................. 495
Wei Jiang, Di Lu, Li Shi, Chenghua Wang, and Rongmei Cao

A Study of the Website Construction of the Translation Course ............ 501
Sun Dongling and Jing Zhihua

Intellectualization Projection Pursuit Regression Model Used in the Water Demand Forecasting ........................................ 505
Peng Yanyan

A Report of the Flexible Construction of the Teacher’s Personal WebPages and Its Preliminary Application .............................. 511
Sun Dongling

Case Teaching Method in the Application of Microeconomics ............ 515
Chunyan Zhao and Dan Ling

The Preliminary Study of Improving the Efficiency of the Government Crisis Management—Giving Recommendation and Inspiration from the Ways of Dealing with Crisis Management of Two Countries between China and Japan ..................................................... 519
Wei Wang
Analysis of the Dislocation and Docking of Students’ Start-Ups between Campus and Industry ........................................ 527
Xiu Li Sun and Ji Xia Tu

Practicing Teaching Quality Monitoring and Evaluation Issues’ Study of Undergraduate Accounting Major .......................... 533
Chunxiang Jia

How to Study Documentation as University Students .................. 539
De Lin Wang and Zhong Wei Wang

Exploration and Implementation of Research Projects on Mechanical Innovative Design .................................................. 547
Li Jin-Quan, Ren Hai-Ying, Zhu Su-Xia, Wei Shi-Min, and Li Duan-Ling

Research and Practice on Teaching Reform of Mold Special English in Vocational University ..................................... 553
Yun Dan Ren

The Mechanism of Comparative Advantage and Competitive Advantage: The Slope Model ........................................... 559
Chunyan Zhao, Shuli Wang, and Dan Ling

The Exploration and Practice of Excellent Courses Characteristics Construction ........................................................ 565
Yumin Pan

CDIO Engineering Applied Talents Training Mode and the Way ...... 571
Lixin Huang, Jianda Cao, and Huai Fu Ma

The Discussion of the Revenue Management and the Pricing Model of the Scenic Spots in China .................................... 577
Jianmiao Zhang and Huaifu Ma

Higher Education: Public Good or Private Good? .................... 581
Gan Kaipeng and Liao Juan

Reformation and Exploration of Higher Engineering Education Based on CDIO Syllabus ............................................. 587
Wenjing Li and Chunming Zhang

The System Construction and Quality Evaluation of Textile Materialogy Research Study Based on the Environment of Internet .............................. 593
Jianda Cao, Yuan Xue, Sitong Cao, Jianchao Zhan, and D.S. Wang

The “Case” Teaching Pattern in Medical Physics ....................... 599
Zhang Ting, Chen Tao, Wang Guang Chang, Zhang Jian Wei, Zhou Ji Fang, and Liu Yu Hong
